FOREWORD
SPENCE

AT THE BEGINNING

In olden days everyone regarded Venus as a symbol of Perfection. Today, although we know that all gods and goddesses are but mythical characters, we refer to Venus many times in our school and everyday life. We think not only of Venus but of the perfection of body, soul, and mind which she represents.

Then, because we work so much better when we have something to look up to, we in school may let Venus represent our goals, our ambitions, our determinations, and look to her as a beautiful inspiration to strive for the things we desire and a perfect accomplishment of them.

DEDICATION

LIFE SCULPTURE

GEORGE WASHINGTON DOANE

Chisel in hand stood a sculptor boy
With his marble block before him,
And his eyes lit up with a smile of joy,
As an angel-dream passed o'er him.

He carved the dream on that shapeless stone,
With many a sharp incision;
With heaven's own light the sculpture shone,—
He'd caught that angel-vision.

Children of life are we, as we stand
With our lives uncarved before us,
Waiting the hour when, at God's command,
Our life-dream shall pass o'er us.

If we carve it then on the yielding stone,
With many a sharp incision,
Its heavenly beauty shall be our own,—
Our lives, that angel-vision.

C. C. KATTERJOHN

This volume's theme is sculpture. Sculpture portrays the artistry of its civilization in ideals and skilful workmanship in the most enduring form, as a monument to its posterity.

American education is attempting to establish its sculpture work as a monument to political posterity in its work in the secondary schools. Nowhere in the world, except in America, is this great educational work being carried on at the expense of the state. It is America's great experiment in the development of permanent democratic principles. In a world arrayed against democratic national ideals, America's educational artistry will be tested for its permanency.

If it endures, the ideals of American democracy will truly fall into the field of sculpture—and its assurance is in the hands of homes, communities, teachers and students, who have inherited the ideals and have the skills in shaping them into the permanent sculpture work of democratic principles for our posterity.

ART

One cannot enjoy the better things of life without an appreciation of art. It is offered in our school to develop appreciation, use of leisure time, and as a foundation and background for those who wish to go further into this field.

This department offers the visitor many interesting things. Here is a beginning class learning how to use charcoal, pencil and brush; lessons in design perspective and crafts. Advanced students are doing "stills" or posters. Commercial Art is offered in the advanced course. The students cooperate with other departments—posters for the operettas and plays; designing and painting of the scenery for the operettas; the art work in the Senior Annual which continues to receive unusually high rating in the National Scholastic Press Association contests.

The students entered a poster contest sponsored by the local Tri Kappas, and the posters were on exhibit at the school after the contest. The department also had an exhibit of Japanese prints before the Christmas holidays. Two beautiful murals were given to the school in an assembly meeting by the artists, Harry Mason and Charles Spence. For several years students have won scholarships to art schools after their graduation.

MATHEMATICS

Mr. Edwin Kahl

Mr. Albert Koehler

The courses are carefully designed to fit the needs of all students. Algebra and Plane Geometry are required of students who plan to go to college. Solid Geometry and Trigonometry are offered for those who want to major in this department or intend to study science or engineering.

Students who major in Commercial subjects must start with courses in Junior Business.

Mr. Koehler's Solid Geometry Class Per. 1 enjoys constructing their solids.

Mr. Koehler joins the Chemistry Department.

Mr. Kahl introduces Group Study in Jr. Business Per. 2.

Metal and Wood Working

The ambition of any boy to become a printer, wood, or metal worker . . . or what have you along that line . . . may be achieved in our Mechanical Arts Department.

The printing class runs off the bi-weekly paper, The Blotter, along with the Junior Highlight and the Main Street School paper. Also all incidental printing for all the schools is done there.

In Mechanical drawing one starts with the most elementary procedures and continues through the specialized field.

In general metal or wood working any article one wishes to construct of metal or wood may be made, and individual instruction is given because of the variety of projects.

DEBATING

MR. HUCKLEBERRY, Coach

This year's debate squad, the most successful one ever to represent our school, competed in 104 debates, winning more than 75% of them.

The first team, Ida Whittinghill, James Mann, Victor Zink, Walter Gadient, and Robert Dean, attained first honors in three early season tournaments at Bloomington, North Vernon, and at our own Interstate Tournament. They also placed second at Lexington, and Harrodsburg, Ky. In these tournaments, the outstanding debate squads of Indiana and Kentucky participated.

The team won the Sectional and Regional titles, and reached the semi-finals in the State Tournament, where, in a split decision, La Porte defeated them.

Debaters this year were: Seniors—Ida Whittinghill, Cecilia Ferree, Mary Lee Keith, Mary Lee Seacat, James Mann, and Victor Zink; Juniors—Mary Louise Coleman, Bob Dean, Joe Earl, Marjorie Erganbright, Walter Gadient, and Charles Pearce; Sophomores—Betty Boaz, Gracie Boylan, Billy Diedrich, Joanne Genung, Maurice Gohmann, Martine Grant, Betty Lou Lawson, Gordon Owen, Marilyn Peterson, and Betty Jane Seacat.

This year, also, our school was awarded a chapter in the National Forensic League, the national honor society of public speaking; dramatic, humorous, and oratorical declamation, original oratory, and radio speaking are included in its program.

The officers of the chapter are: President—James Mann; Vice-President—Victor Zink; Secretary—Ida Whittinghill; Treasurer—Robert Dean.

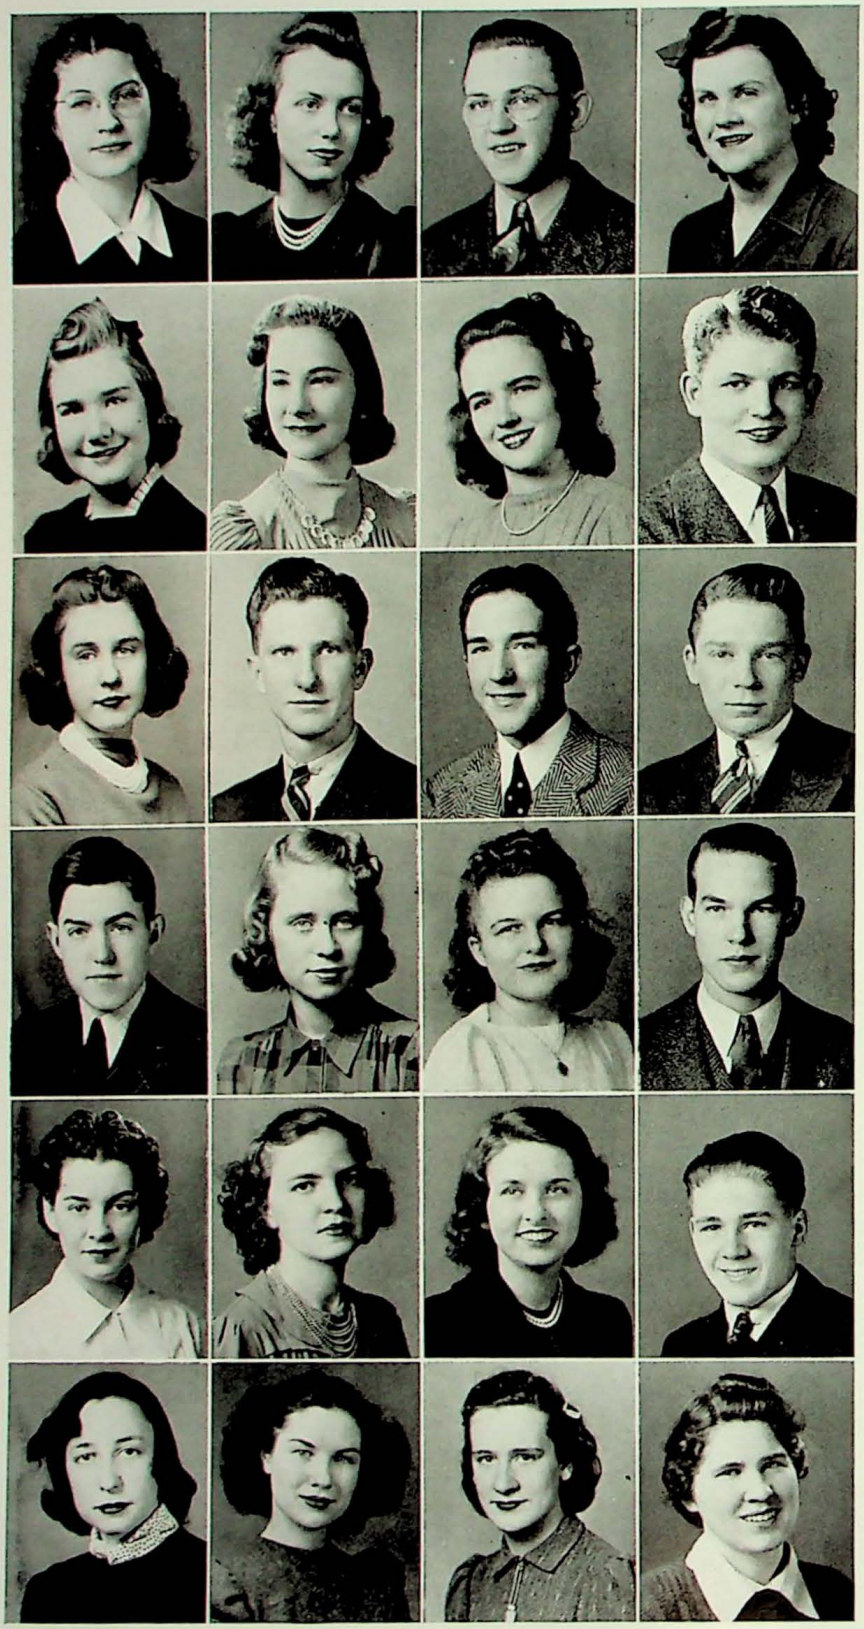
Seven students participated in the Tenth District contest of the League. The debate team advanced to the finals where they lost to Logansport, Indiana. Students to make the trip were Billy Joe Diedrich, who won third place in oratorical declamation, Victor Zink, who won first place in extemporaneous speaking, Ida Whittinghill, James Mann, Cecelia Ferree, Jo Ann Genung, and Walter Gadient.

James Mann won the State Extemp Contest, held at Greencastle. This victory made him, along with Zink, eligible for the National Speech Tournament at Terre Haute, Indiana.

In this tournament, Mann competed in five rounds of extemp, gaining a tie for eighth place, and Zink competed in three rounds of extemp and three rounds of radio speaking.

In other speaking contests, Billy Diedrich won the district Optimist Oratorical contest, making him eligible for the international contest to be held in Kansas City in June. Victor Zink won first in the local Rotary contest and gained second in the district contest.

SCHOLARSHIP N's



"A person eminent for learning," says Mr. Webster of scholars. And the New Albany Senior High School proudly here pays tribute to its scholars.

Coach Thom, graduated from Parker High School in Chicago, entered Monmouth College, Illinois, where he earned eleven letters. His top sports were football, track, wrestling, and swimming. He coached the freshmen at Monmouth in 1928 and 1929 before coming to New Albany.

The 1939 season started with but one regular lineman of 1938. The squad faced the heaviest schedule ever attempted by a New Albany team. Although they won only 3 of 10 games, every game was hard fought and lost by a small score, excepting Manual, the ranking number one Kentucky team.

Eighteen men were awarded letters and thirteen will return for the 1940 "wars."

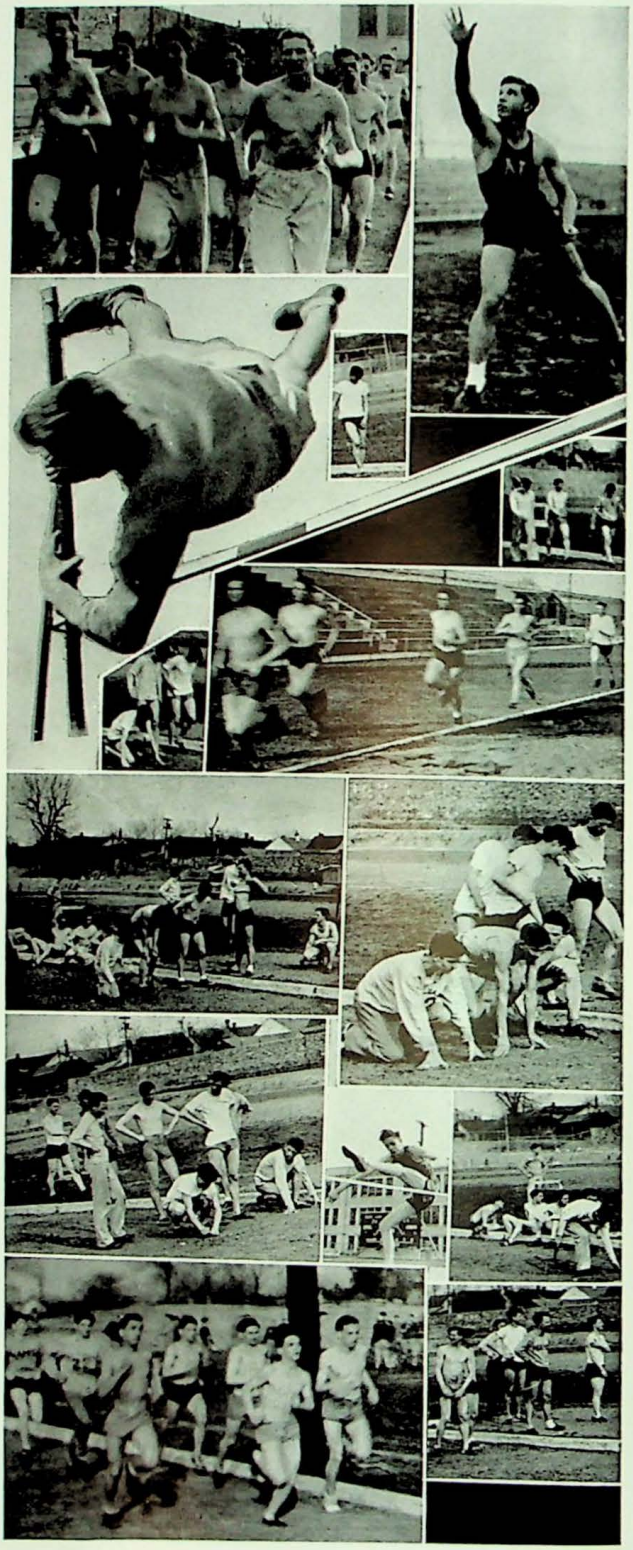
TRACK

A few shots of the thinlies at their work-out. Good material that's out to bring in the trophies. Coach Thom has won eleven straight sectional meets and will stand a fine chance to make it a dozen.

On April 27, in the high jump, Bill Kercheval made it at five feet five and one-half inches. Bulldogs set a new record in half mile relay at 1:35.4. The relayers are Junie Zoeller, Bill Kercheval, George ZurSchmiede and Frank Tinius.

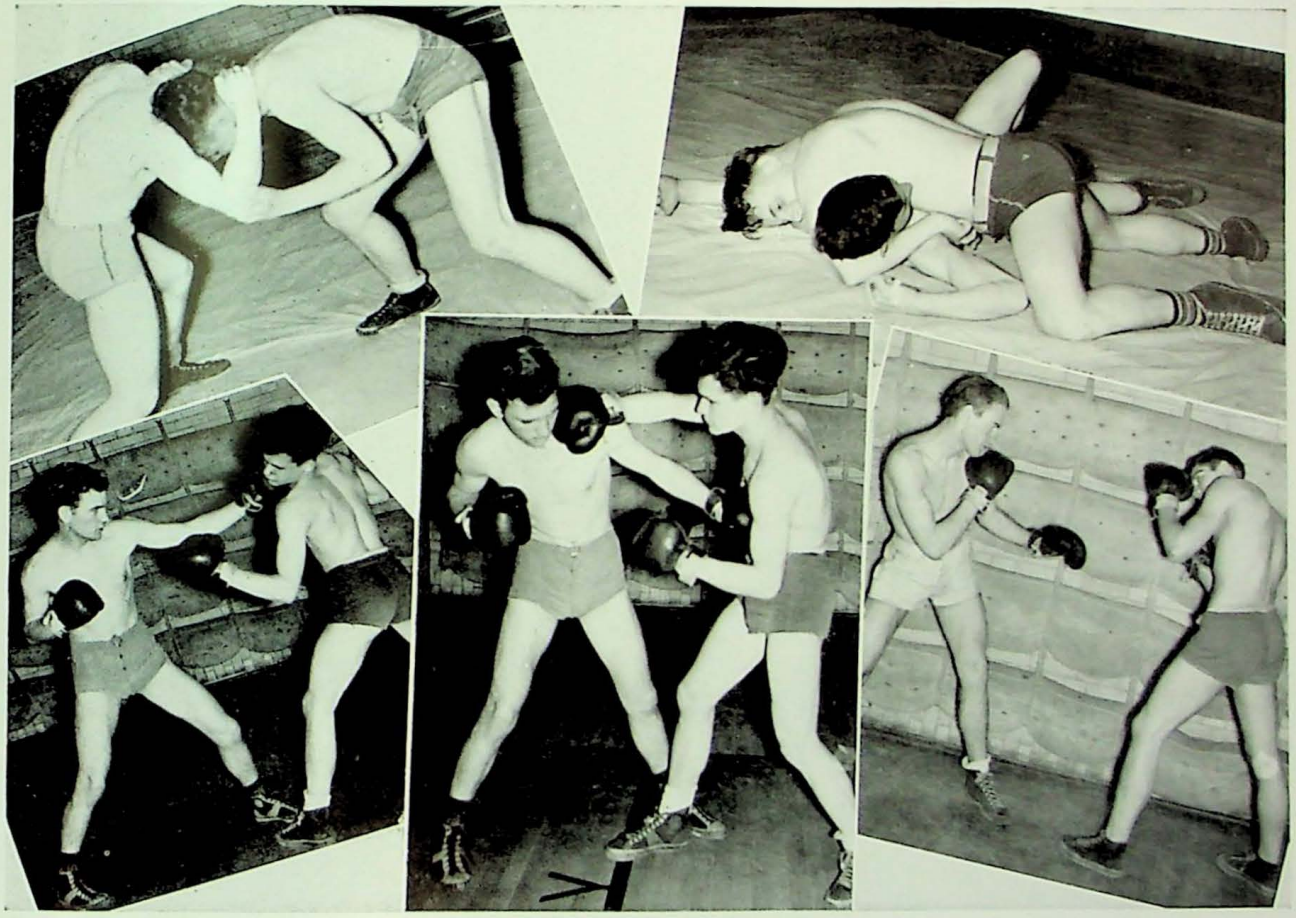
On May 4, the N. A. H. S. boys won the twelfth Annual Southern Indiana Invitational meet at Petersburg. They won three relay events, first and second in the 120 yard high hurdles, and second in the broad jump. Mile relay team, ZurSchmiede, Tinius, James Erb and Bob Byrd broke the 1937 meet record with a 3:37.3 record. Diedrich and Miller also scored in the shuttle hurdles.



MINOR SPORTS

Minor sports this year have been confined to boxing and wrestling. Interest in boxing is especially keen since the "Golden Glove" contests, sponsored by the newspapers.

Bill Tucker has gone into the sport with a real wallop and may someday add a world's champion crown to his football "N's."



Miss Lena J. Board

Miss Board, Dean of Girls and Director of Girls' Athletics, resigned at the close of the year to go on the retired list and ended a remarkable teaching career.

She graduated from the University of Louisville, with a B. S. Degree in Biology, and from the Battle Creek Physical Education College; she studied at the University of Chicago and at Columbia. She had charge of the Girls' War Camp in Louisville at the time of the First World War and taught at Jeffersonville before coming here.

Like an artist, she worked with us—raw material—to bring us nearer physical perfection. She helped us in kindness and in faith. To her we pay tribute and send our good wishes. We'll remember her advice—"Heads Up!"

We shall always remember her as a cheerful, all 'round girl and a willing worker.

Better Sight and Better Marks with BETTER LIGHT

LOOK FOR THIS TAG

This tag identifies lamps that are built according to the specifications of the Illuminating Engineering Society. They are certified for lighting efficiency.

Plenty of the right kind of light does more than simply make it ***easier*** to see—it makes sight more accurate and eliminates the distraction that comes from tired, strained eyes. It means better sight now and better sight for the years ahead.

The right kind of home lighting nowadays is available to any home. Modern Better Sight lamps are made in many styles, electric bulbs are cheaper and more efficient than ever before—and Better Light is cheap!

Christmas time comes once a year—and then birthdays and all the other celebrations when you just must give gifts—but what? ? Ask if Endris & Son isn't the proper place, and jewelry isn't the proper gift.

We noticed Vaughn Mattox and "Doug" . . . looking in Huff's windows the other day. What's this? Are they planning a home already?

When Bobby Oakes went down to Anchor Stove and Range Co. to get an ad for the Senior Annual, he got so interested in the stokers, he nearly took one home with him.

A rush to the beauty parlor as soon as school closes! Then little time for dinner. The door bell rings . . . A corsage for the lady, direct from A. Rasmussen & Son. As she pins it on her rustling dress she knows she'll have more fun at this dance than at any before . . . And wasn't it sweet of him. So get wise lads, call Rasmussen's!

Did you ever try to get into the Grand or Indiana theatre on a Sunday night? Everybody in town goes. We wonder how Kitty Frey and Billy Grey always get such good seats.

Speaking of ice cream—or were we—what could be more refreshing than an ice cream cone at Cullen's when it's 98° in the shade? The Sherman boys, Bill and George, agree with us. But we wonder for whom it is they buy their numerous cones—blonde, brunette, or red head?

We wonder why so many of our Senior boys frequently patronize the White House. Is it their very attractive suits or their very attractive clerks? Many of last year's graduates are working there and with the combination of clerks and quality, well, what more can you ask?

Some of the graduates are more than likely going to venture into the state of matrimony soon after school is out. We'll probably see these happy couples patronizing the Kirk Lumber Co. to build a model home for themselves. When old man winter comes, they can call E. T. Slider for coal to keep the home fires burning. For furnishings the Schmitt Furniture Co. will surely be the place they'll go. And for tables, off to the Breece Veneer and Panel Co.

Any old time you want a banquet, or just a real feast go up to Woolworth's Cafeteria. Ask the athletic stars and the Journalism group if it isn't tops!

All the girls around school seem to be getting convertible coupes. We wonder if they trade at Trinkle's Motor Co.

If you see Kathryn Frey, Mary Lee Keith, and Patsy Newhouse file into McDonald's Drug Store, you can be certain they're either going in to see Jane or pick out their favorite perfumes and lipsticks.

Attention future milkmen! If you are graduating into the milk business at the Purity Maid you will find this an ideal time to start, with the summer mornings bright and cheery.

Leonard Hottel will be on his way to the New Albany Business College next fall. How many other N. A. boys and girls will be doing likewise?

Yes, siree, if it weren't for Petery-Hedden's what would all these commercial students who like home practice do? We've had a glimpse of Dorothy Castle and numerous other girls rushing in to rent typewriters—or do they have a cute boy behind the counter?

The boys insist they like nothing better than sport clothes for us girls to prance around school in, but without Helman's we'd certainly have a hard time finding such attractive sport outfits. So cheer for Helman's, boys, and ask Marjorie Fox where she gets some of those darling clothes she displays so well.
